What is this...

A webmaster training campaign is not just a fleeting course. This campaign is a one-time only virtual online class. We want to organize an online training course and train you to choose the best among you. 10 people will be selected from among you to form a start-up team, which will be managed by engineer Erfan Mahighir. In this camp, which lasts more than a year and a half, you learn how to look, how to think, how to read other people's minds, how to analyze, how to choose, how to produce and how to implement. There is a giveaway in this campaign, how to sell...!

Everything a freelancer needs to work in the web field is fully learned in this training campaign.

Start Travel....

Web Expert Campaign Roadmap

Quick look

Internet

Database

UI & UX

API

Frontend
